- 1 elective course (if applicable)

Application deadlines: 1 April and 1 October

Representative office in North America:
International Studies Abroad (ISA)

Outcomes and Impacts

- Increased academic **maturity**
- **Hands-on experience** in international research practices
- Unique **insight into** chosen field of research
- **Increased** interpersonal and **academic communication skills**
- Actual **academic (joint) publication**
- Improved profile for further study and **career decisions**
- Admission to prestigious graduate programs **worldwide**
- **Life-long** transatlantic network

Quotes from EuroScholars Alumni

Maria Garcia Quesada (Tulane University / University of Geneva, S2014): *"EuroScholars gave me the opportunity to independently lead, conduct, and complete a research project, which gave me very important skills that showed through [during] my job application process and helped me stand out as an applicant."*

Kerri Hunter (University of Manitoba / University of Helsinki, S2010): *"The EuroScholars experience prepared me to do the kind of research I am doing, and I think helped me secure a spot in my master's program in Clinical research. I am very glad that I chose to participate in EuroScholars. It was one of the most beneficial experiences of my life so far."*

Sander Zandbergen (Case Western Reserve University / Leiden University, S2009): *"My time abroad in the Netherlands, specifically the research project I worked on that culminated in a first author publication in Physical Review Letters, helped immensely when applying to graduate school. I made innumerable close friends, and I traveled all over Europe. I had a life-changing experience with this program, and I always, always look on it fondly."*

Quotes from Research Supervisors

Dr. Chris Warren, Leiden University: *"My student was extremely capable and independent and helped me get a lot of research done. I think the EuroScholars program was an excellent experience from my student and for me as well."*

Dr. Jos Malda, Utrecht University: *"Student worked hard and got a lot done, results are the basis for a manuscript that is now being written. Good student, example for others - Science is an international field, hence I strongly support international interactions of my group members."*
